

Dear colleagues and partners,

Wyndham Community & Education Centre has been working towards continuing all services we are contracted for whilst being mindful of keeping our staff and community members healthy and safe during the current COVID-19 pandemic.

The last two weeks have been incredibly busy as we have been working towards continuing to meet the needs of our community in a meaningful way.

Importantly, our programs and services continue to operate but in a different way. Those programs that were run in Wyndham City venues and other community centres have all ceased to operate as these venues closed.

Below is a table of our main programs and services and the current status and contact points. Please note our usual telephone number 9742 4013 continues to operate and reception staff can direct your call to any of the people below working from home.
